

Bytecode:

```
0000: push_str      0000
0003: pop
0004: push_str      0001
0007: return
0008: push_str      0002
000B: pop
```

优化后

Bytecode:

```
0000: push_str      0000
0003: pop
0004: push_str      0001
0007: return
```

Constant Pool:

```
0000: "before return"
0001: "return value"
0002: "after return"
```

Constant Pool:

```
0000: "before return"
0001: "return value"
```
